

Description

Bellow Seal Globe Valve is a high quality valve , importing abroad advance technology.

Nominal Pressure(MPa): 1.6, 2.5, 4.0

Sizes: DN15mm to 400mm

Applications: Industry, power stations, flue gas purification plant, processing technology, gas supply, vapour facilities, recycling facilities, vacuum facilities, hot water, heating technology, district heating, thermal oil applications, general plant manufacturing, etc.

Mediums: Steam, gases, hot water, thermal oil, process water, vacuum facilities, ammonia etc.
